Resource Editor

Various companies have multiple terminologies to define keywords and values. Every company has customized values to various fields. The Resource Editor thus enables the user to assign the values used by Individual Company to various keywords.

1. Functionality

1. Search

It enables user to search the specific page for any keyword. Enter the keyword in the Search dialog box. Searched field is highlighted and displayed on the page.

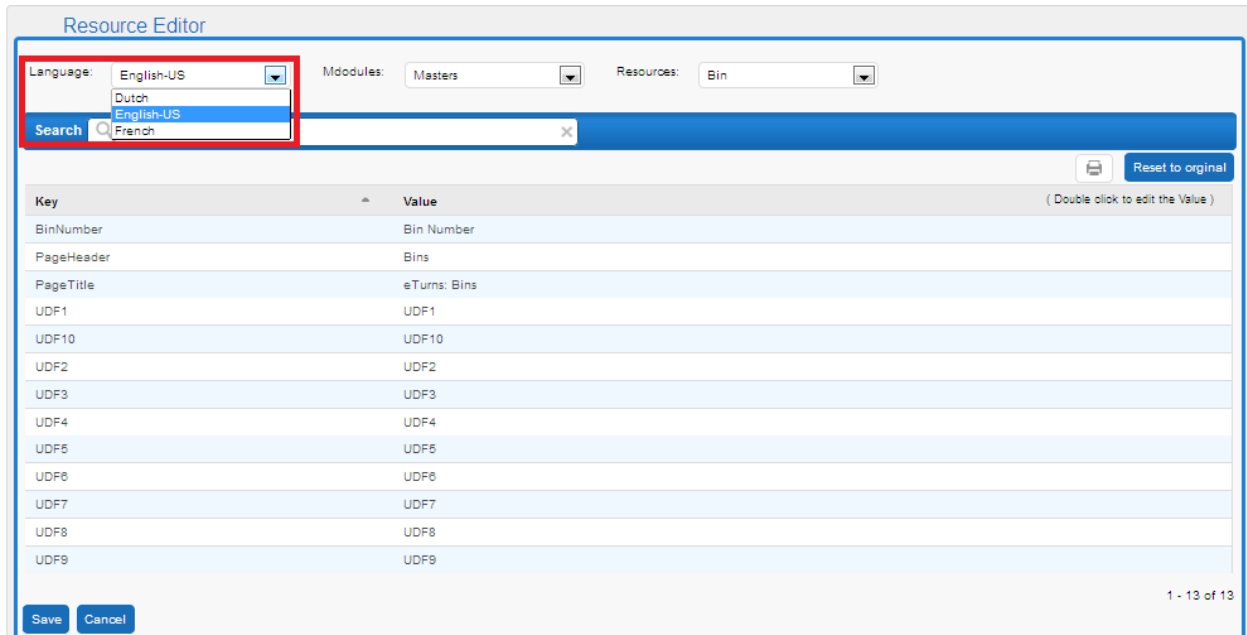

The screenshot shows the 'Resource Editor' window. At the top, there are dropdown menus for 'Language' (English-US), 'Modules' (Masters), and 'Resources' (Bin). Below these is a search bar with a magnifying glass icon and a close button (X). A red rectangle highlights the search bar. To the right of the search bar are buttons for 'Reset to original' and 'Reset to original'. Below the search bar is a table with two columns: 'Key' and 'Value'. The table contains the following data:

Key	Value
BinNumber	Bin Number
PageHeader	Bins
PageTitle	eTurns: Bins
UDF1	UDF1
UDF10	UDF10
UDF2	UDF2
UDF3	UDF3
UDF4	UDF4
UDF5	UDF5
UDF6	UDF6
UDF7	UDF7
UDF8	UDF8
UDF9	UDF9

At the bottom left of the window are 'Save' and 'Cancel' buttons. At the bottom right, it says '1 - 13 of 13'.

2. Language

This drop down enables user to choose between the various language options for the information to be displayed.

The screenshot shows the "Resource Editor" window. At the top, there are three dropdown menus: "Language:", "Modules:", and "Resources:". The "Language:" dropdown is open, showing a list of options: "English-US", "Dutch", "English-US", and "French". A red box highlights the "Language:" dropdown and its options. Below the dropdowns is a search bar with a magnifying glass icon and a close button. To the right of the search bar is a "Reset to original" button. Below these elements is a table with two columns: "Key" and "Value". The table contains several rows of data, including "BinNumber", "PageHeader", "PageTitle", and various "UDF" entries. At the bottom left of the window are "Save" and "Cancel" buttons. At the bottom right, it says "1 - 13 of 13".

Key	Value
BinNumber	Bin Number
PageHeader	Bins
PageTitle	eTurns: Bins
UDF1	UDF1
UDF10	UDF10
UDF2	UDF2
UDF3	UDF3
UDF4	UDF4
UDF5	UDF5
UDF6	UDF6
UDF7	UDF7
UDF8	UDF8
UDF9	UDF9

3. Module

This drop down enables user to choose the module to be displayed on screen.

UDF9	UDF9

1 - 13 of 13

5. Export

Export functionality enables user to export the page. Click on the Export icon on top right of the screen and then user may choose to export the page through any of the following mediums:

- a) Print: It prints the selected page.
- b) Excel: It converts the page to excel sheet.
- c) CSV: It converts the page to CSV sheet.
- d) PDF: It converts the page to PDF document.
- e) Copy: It copies the page to Clipboard.

6. Reset to original

If the setting done by user are not correct and they wish to revert back to the original settings, click [Reset to original](#).
