1. Editing features

a. New (Not implemented as screen too wide)

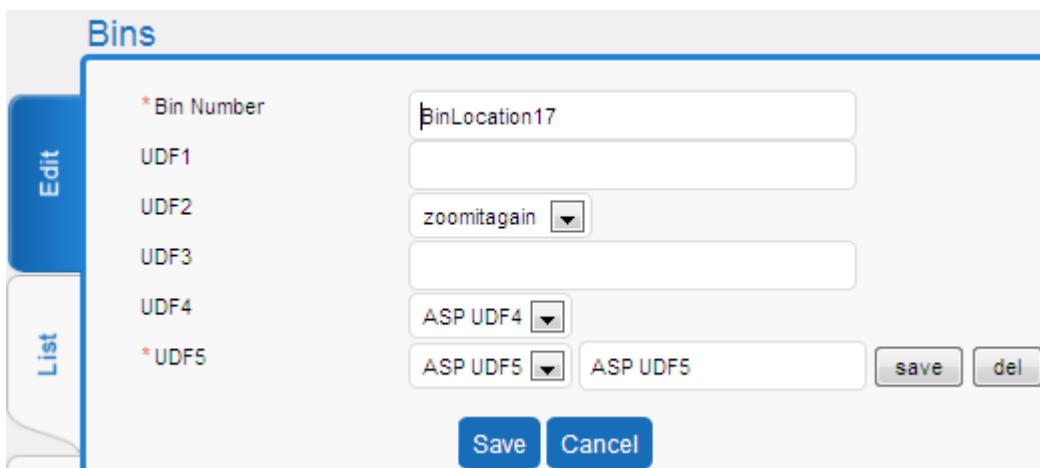

It enables the user to create a new field, depending on the authority level. The user can either click on vertical tab "New" on the screen or right click and select 'New' from the list. The following screen is displayed:

User can save records hitting "Enter" key of the key board or clicking "Save" button. Clicking "Cancel" button will redirect user to "History" tab.

b. Edit (Not implemented as screen too wide)

It enables the user to edit an existing field, depending on the authority level. Select the field to be edited and click on it. The following screen is displayed:

User can save records hitting "Enter" key of the key board or clicking "Save" button. Clicking "Cancel" button will redirect user to "History" tab.

Note: The fields marked star are compulsory to enter.

c. Delete

- It enables user to delete the selected or multiple fields. Select the field by clicking on it and then click on Delete icon or press Delete key on your keyboard.

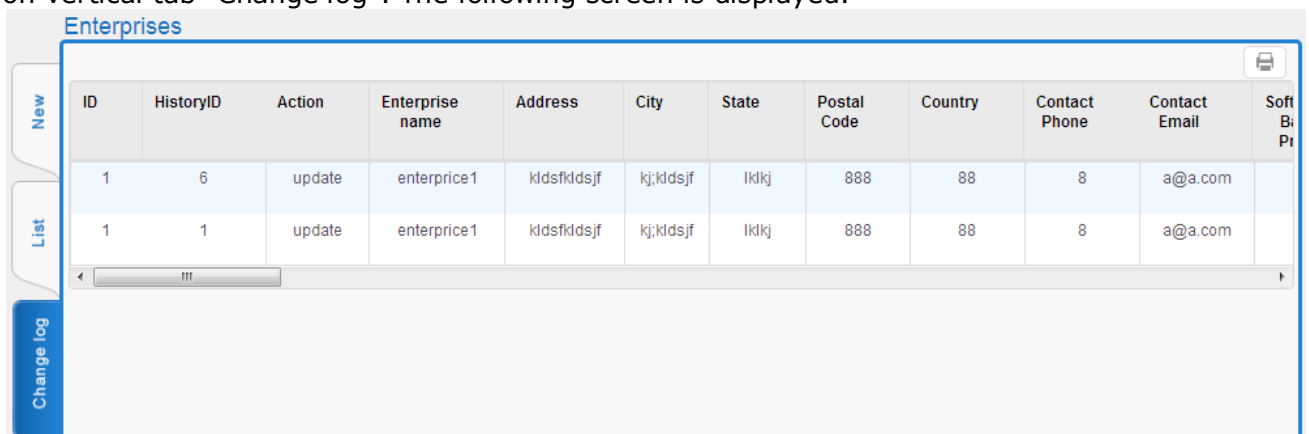

- The following pop-up appears:

- Select  to delete and  to return back to previous screen.

d. Change log

It enables the user to check the update history of particular field, i.e, when the field was created and the number of times it was updated. The user must select the field, and then click on vertical tab "Change log". The following screen is displayed:

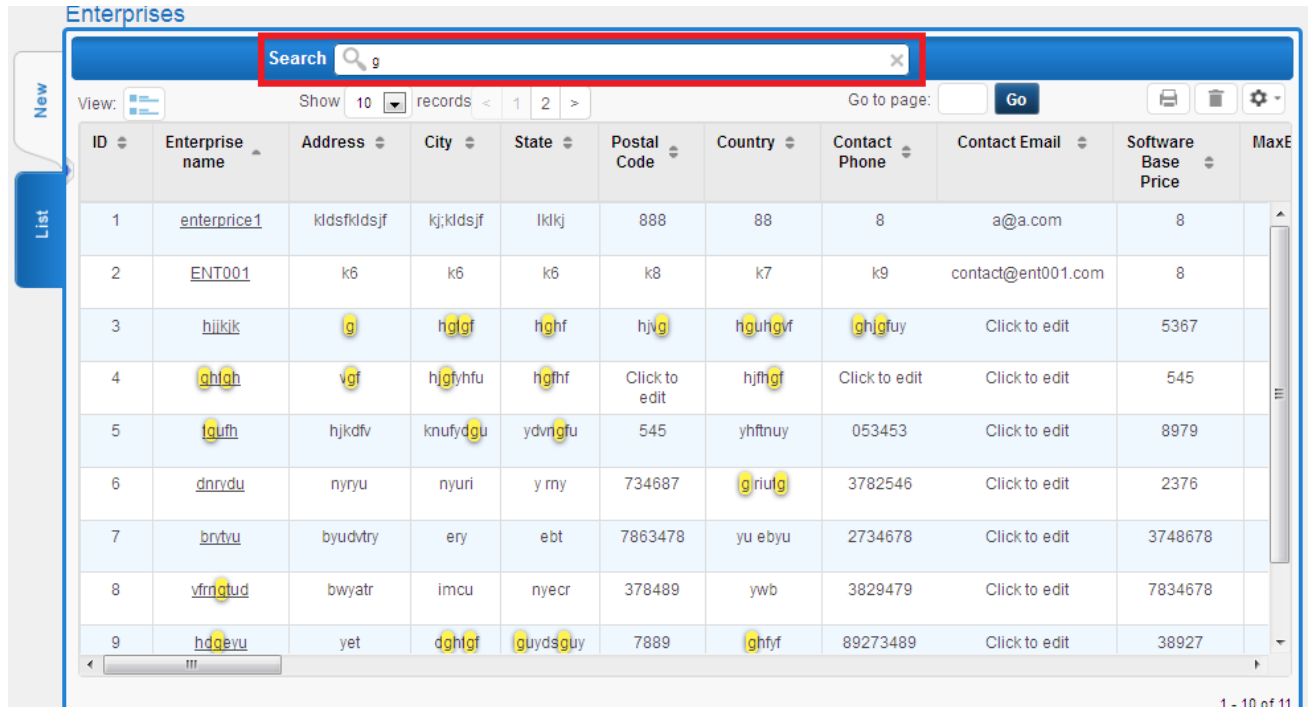

2. General features

a. Search functionality

i. Main search

It enables user to search the specific page for any keyword. Enter the keyword in the Search dialog box. Searched field is highlighted and displayed in the list.

ID	Enterprise name	Address	City	State	Postal Code	Country	Contact Phone	Contact Email	Software Base Price	MaxE

Note: Search functionality searches the keywords as you type. The fields with similar keywords get highlighted.

ii. Narrow Search By functionality

As the name suggests this function is used to filter or narrow down the scope of search for user convenience. It is an alternate search to the Search functionality and much detailed one.

- To open Narrow search, click on the small Triangular icon on the top left corner of the screen.
- The following screen appears:

1 - 10 of 11

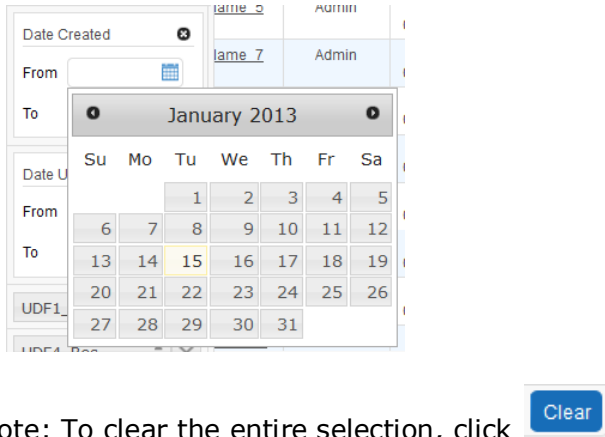

Note:

- At point of time only one of the either searches will work.
- Fields in narrow search may vary from module to module.

Field	Description
User Created by	<p>It is used to filter the module for the 'Created by' field. Click on up-down arrow key. Dropdown appears:</p>  <p>User can select or unselect all of the items of the list using Check or Uncheck button. The module reflects the filter selections made.</p>
User Updated by	<p>It is used to filter the module for the 'Updated by' field. Click on up-down arrow key. Dropdown appears:</p>  <p>Either checks the pre-defined search filter or enter a new keyword in the Filter box and then click on Check. The module reflects the filter selections made.</p> <p>Note: To cancel the selections made at any point of time, click <input type="button" value="x"/>.</p>

Date Created
and
Updated

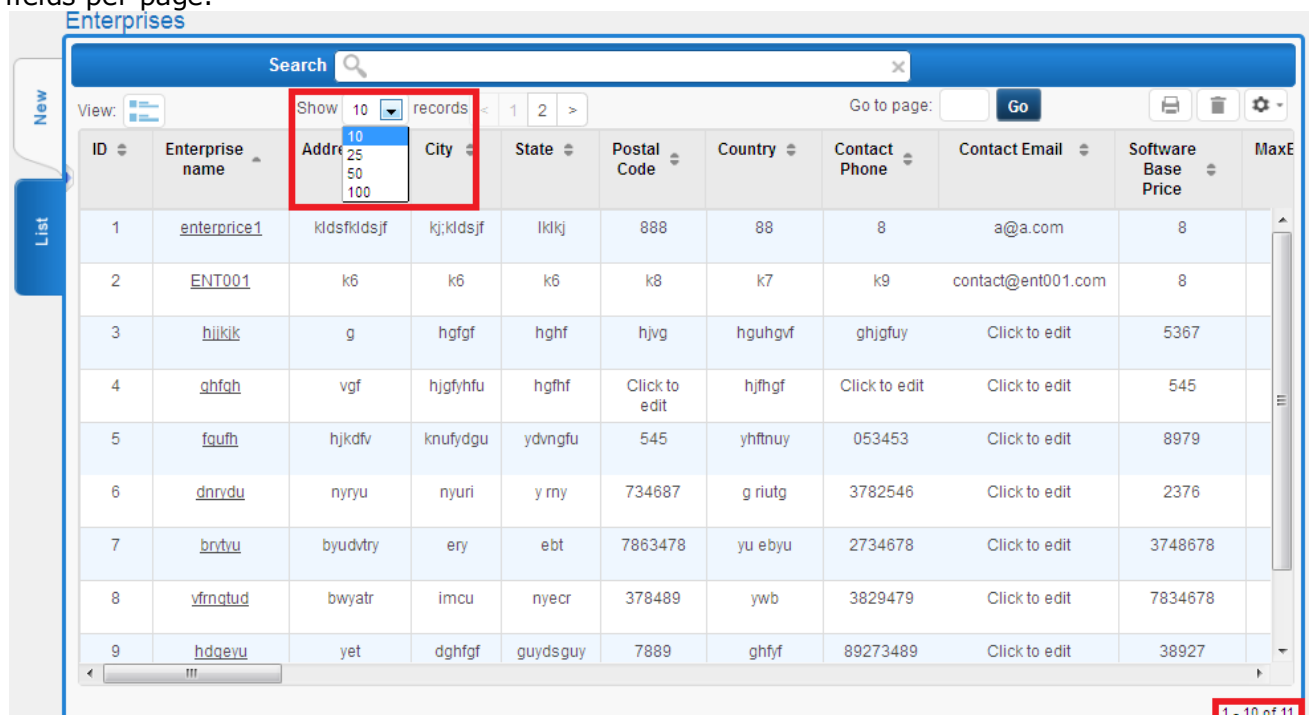

They are used to filter the 'Created On' and 'Updated On' fields respectively. User may enter the date manually or select from the calendar pop-up. Enter 'From-To' time period to be filtered. The module reflects the search results for the selected time period.

Note: To clear the entire selection, click [Clear](#)

b. Show records Functionality

Show records functionality is dropdown option that enables user to view specified number of fields per page.

Note: Show records functionality enables user to select from 10, 25, 50 and 100 fields to be displayed per page.

c. Go To Page Functionality

Go To Page functionality enables user to skip any specified page. Type the specified page number to view in the Go to page box and then click [Go](#). The specified page is displayed on the screen.
