1. Editing features

a. New

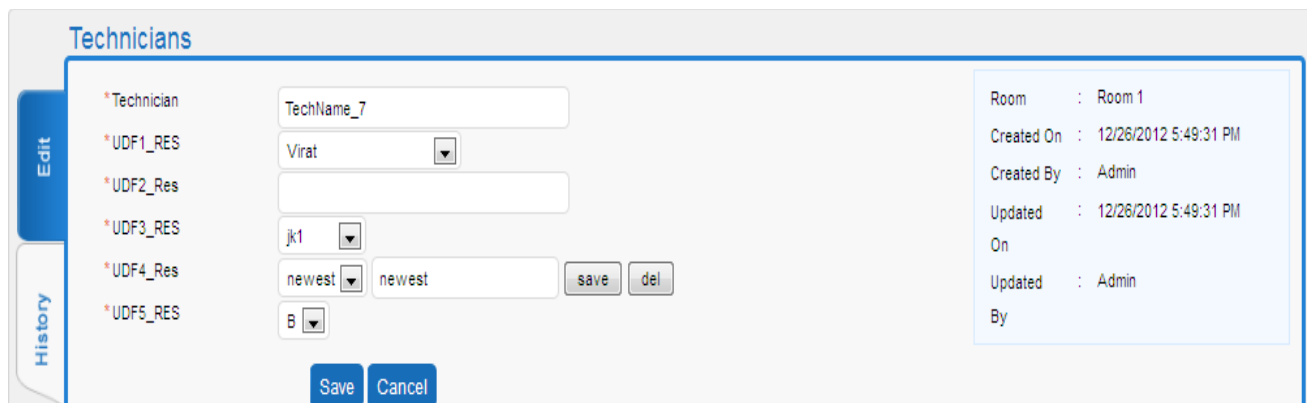

It enables the user to create a new field, depending on the authority level. The user can either click on vertical tab "New" on the screen or right click and select 'New' from the list. The following screen is displayed:

User can save records hitting "Enter" key of the key board or clicking "Save" button. Clicking "Cancel" button will redirect user to "History" tab.

b. Edit

It enables the user to edit an existing field, depending on the authority level. Select the field to be edited and click on it. The following screen is displayed:

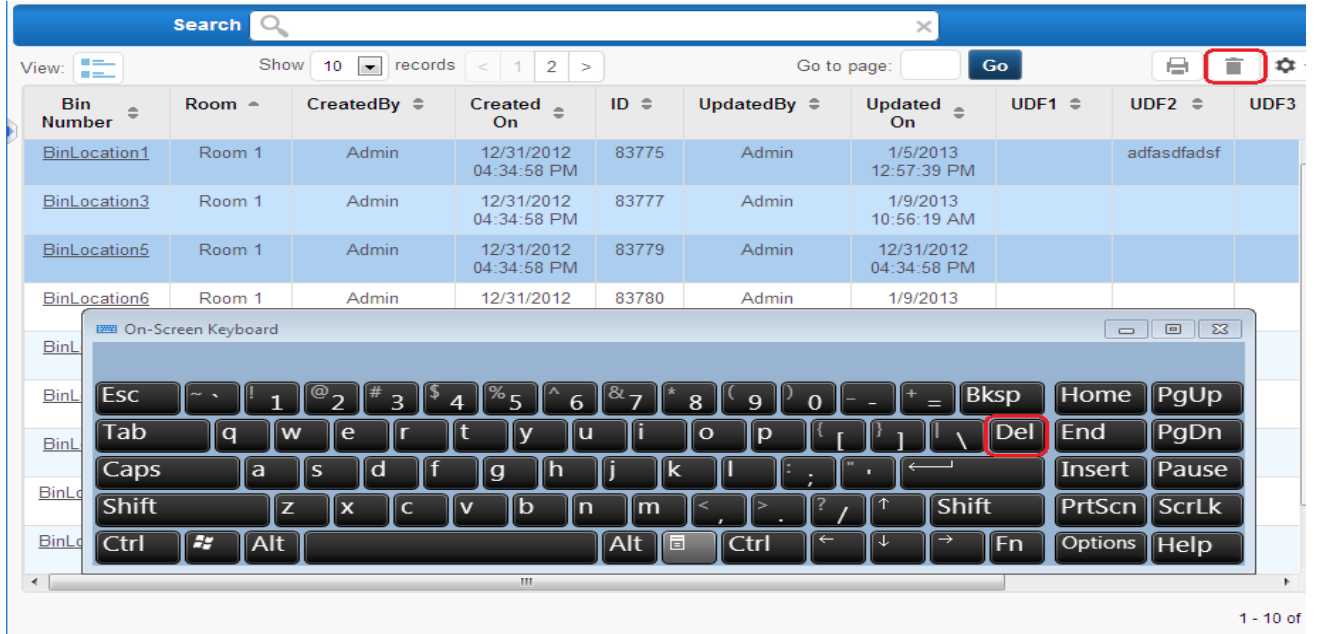

User can save records hitting "Enter" key of the key board or clicking "Save" button. Clicking "Cancel" button will redirect user to "History" tab.

Note: The fields marked star are compulsory to enter.

c. Delete

- It enables user to delete the selected or multiple fields. Select the field by clicking on it and then click on Delete icon or press Delete key on your keyboard.

- The following pop-up appears:

- Select  to delete and  to return back to previous screen.

d. Change log

It enables the user to check the update history of particular field, i.e, when the field was created and the number of times it was updated. The user must select the field, and then click on vertical tab "Change log". The following screen is displayed:

2. General features

a. Search functionality

i. Main search

It enables user to search the specific page for any keyword. Enter the keyword in the Search dialog box. Searched field is highlighted and displayed in the list.

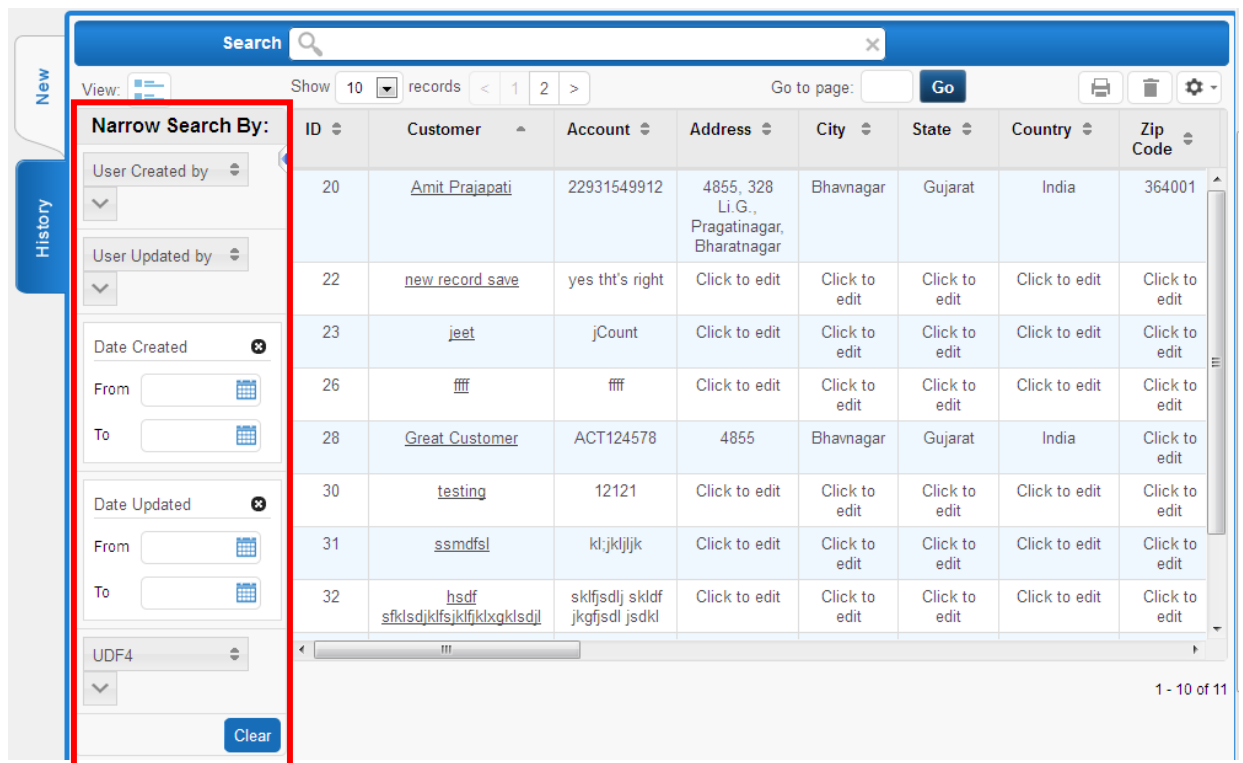

ID	Technician	Created By	Created On	Deleted?	Archived?	UDF1_RES	Updated On	Updated By	UDF4_Res

108896	TechName_13	Admin	12/26/2012	false	false		12/26/2012	Admin	

Note: Search functionality searches the keywords as you type. The fields with similar keywords get highlighted.

ii. Narrow Search By functionality

As the name suggests this function is used to filter or narrow down the scope of search for user convenience. It is an alternate search to the Search functionality and much detailed one.

- To open Narrow search, click on the small Triangular icon  on the top left corner of the screen.
- The following screen appears:

Narrow Search By:

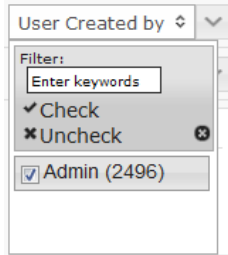

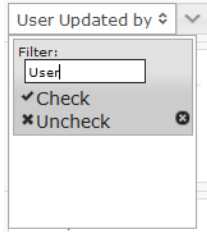

- User Created by: [Dropdown]
- User Updated by: [Dropdown]
- Date Created: [From] [To]
- Date Updated: [From] [To]
- UDF4: [Dropdown]

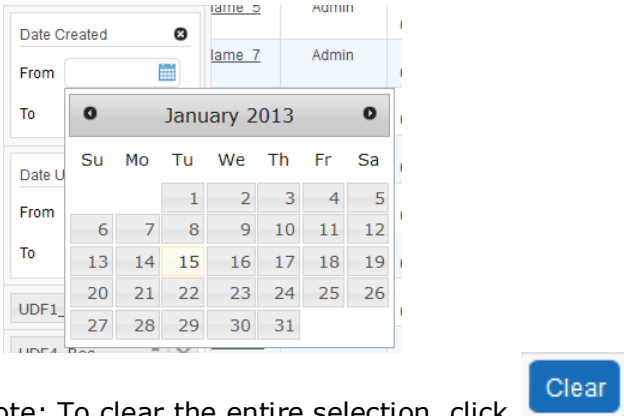

Table Data:

ID	Customer	Account	Address	City	State	Country	Zip Code
20	Amit Prajapati	22931549912	4855, 328 Li. G., Pragatinagar, Bharatnagar	Bhavnagar	Gujarat	India	364001

1 - 10 of 2,496

Note: Show records functionality enables user to select from 10, 25, 50 and 100 fields to be displayed per page.

c. Go To Page Functionality

Go To Page functionality enables user to skip any specified page. Type the specified page number to view in the Go to page box and then click **Go**. The specified page is displayed on the screen.

The screenshot shows a web application interface for a table titled "Technicians". The table has columns: ID, Technician, Created By, Created On, Deleted?, Archived?, UDF1_RES, Updated On, Updated By, and UDF4_Res. The first row of data shows ID 108898, Technician TechName_15, Created By Admin, Created On 12/26/2012 05:49:31 PM, Deleted? false, Archived? false, UDF1_RES, Updated On 12/26/2012 05:49:31 PM, Updated By Admin, and UDF4_Res. The table is paginated, showing 10 records per page. The "Go to page:" box is highlighted with a red rectangle, and the "Go" button is also highlighted. The page number "2" is entered in the box. The "Show 10 records" dropdown is also highlighted. The "New", "History", and "Change log" buttons are visible on the left sidebar. The bottom right corner shows "11 - 20 of 2,498".

d. Export Functionality

Export functionality enables user to export the page. Click on the Export icon on top right of the screen and then user may choose to export the page through any of the following mediums:

- Print: It prints the selected page.
- Excel: It converts the page to excel sheet.
- CSV: It converts the page to CSV sheet.
- PDF: It converts the page to PDF document.
- Copy: It copies the page to Clipboard.
